

## Manual

### HRG/SFPT anti-reflection filter for DSII/SFPT double-stack modules at LS80MT & LS100MT telescopes

The anti-reflection filter HRG/SFPT effectively reduces reflections that may occur when using the DSII/SFPT double-stack module at LS80MT & LS100MT telescopes.

Scope of delivery:

- HRG/SFPT anti-reflection filter

#### **Please note:**

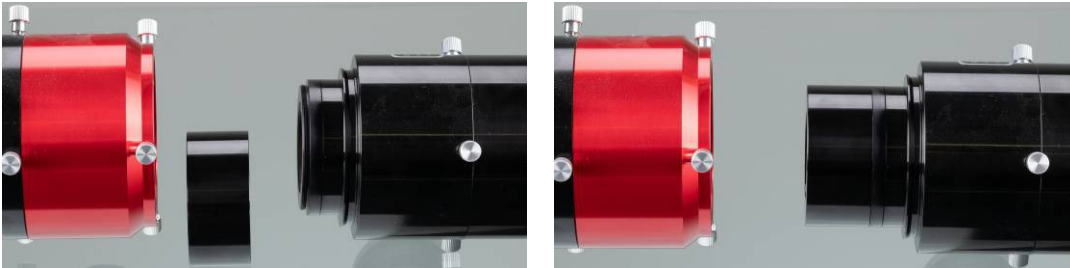

This filter cannot be used separately. It can only be used on a Lunt Solar Systems LS80MT or LS100MT telescope together with a DSII/SFPT Double-Stack module.

#### **Installing the anti-reflection filter**

Remove the DSII/SFPT double-stack module from your telescope.

Screw the HRG/SFPT anti-reflection filter to the DSII/SFPT double-stack module.

Reattach the DSII/SFPT double-stack module to your telescope. That's all.
